RETRACTABLE AWNINGS

SUMMERSPACE®

OUTDOOR LIVING REDEFINED

Transform any sun-drenched patio, deck, or outdoor living area into a cool, comfortable retreat with a SummerSpace® Simple Shade Awning. Designed to block harsh sunlight while maintaining an open, airy feel, these awnings create an inviting shaded oasis where you can relax, entertain, and unwind without the intensity of direct heat.

Beyond comfort, they provide an added layer of protection by reducing exposure to harmful UV rays, helping safeguard both your skin and outdoor furnishings from sun damage. The result is a more enjoyable, usable space that feels like a natural extension of your home — bright, beautiful, and refreshingly shaded.

Simple Shade
RETRACTABLE AWNINGS

Our most popular awning series, Simple Shade offers two styles for the perfect mix of sleek design and smooth functionality for unparalleled solar protection. Our Traditional style provides affordability and comfort with proven performance. The Contemporary semi-cassette style incorporates the same mechanical system with an added decorative and functional built-in hood that protects your fabric when retracted, ensuring years of lasting performance and beauty. Our semi-cassette awning is the perfect fit for roof mount installations, as well.

2 Awning styles:
- Traditional with valance (no cassette)
- Contemporary semi-cassette

Standard widths:
- Sized from 11' to 20' in 1' increments

4 Projections available:
- 8'-6", 10'-2", 11'-8" and 13'-2"

Fabrics:
- Choose from hundreds of beautiful, durable fabrics made by Sunbrella® and Tempotest®

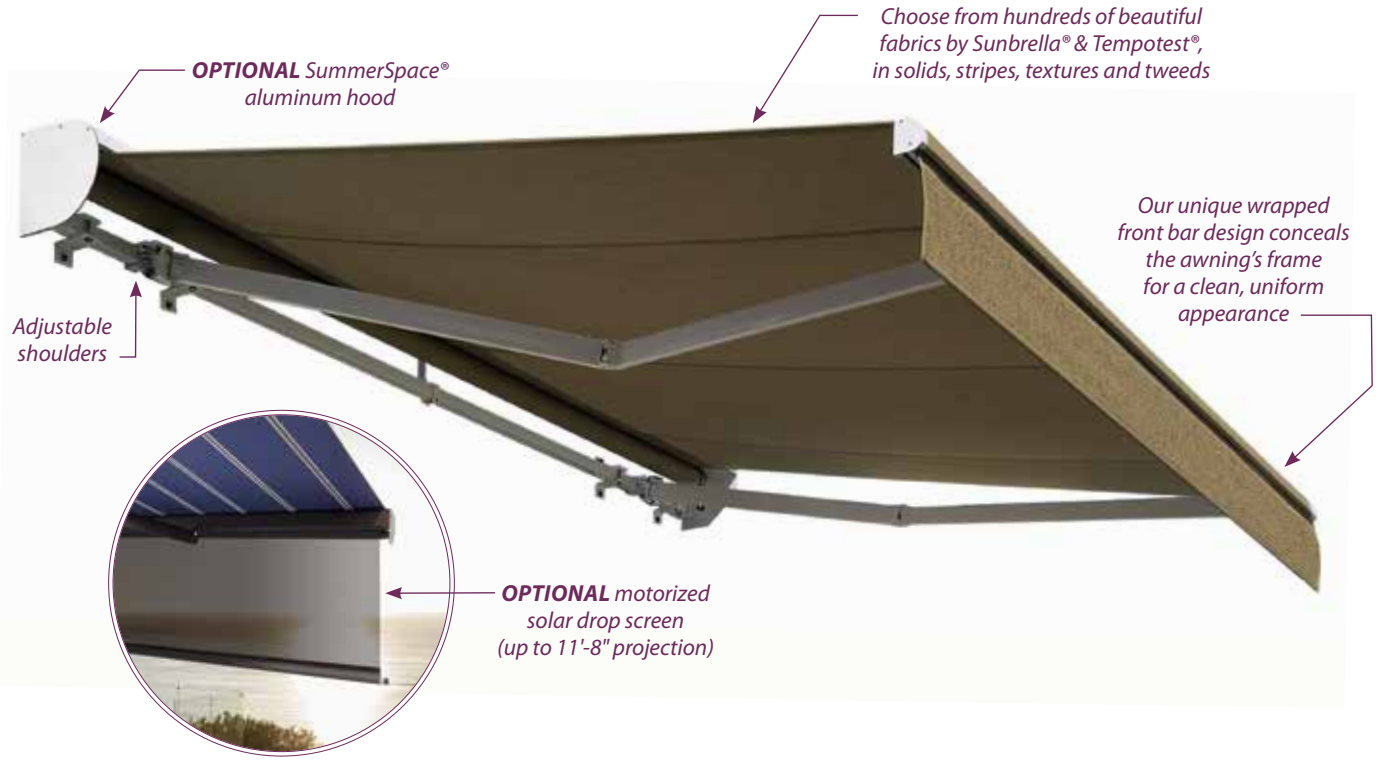

Frame colors:
- We offer 5 textured powder coat colors (see page 10): White, Almond, Sand, Chocolate, Espresso

Warranty:
- 10 year warranty for frame & fabric
- 5 year warranty for plug-in awning motor
- 3 year warranty for wireless battery drop screen motor

Optional accessories:
- Motorized solar drop screen
- Wind/motion sensor
- SummerSpace hood for Traditional style awnings

Traditional Style with Valance

SUMMERSPACE®
OUTDOOR LIVING REDEFINED

The Simple Shade Traditional Style Retractable Awning

This awning has long been a favorite among homeowners thanks to its classic design, dependable performance, and timeless appeal. As a tried-and-true model, it delivers reliable shade with a clean, streamlined look featuring a straight valance for style and extra sun protection. Designed for smooth, low-maintenance operation, this awning offers the perfect balance of form and function, allowing homeowners to enjoy comfortable outdoor living season after season. Its popularity comes from its ability to blend seamlessly with a wide range of home styles while consistently providing the shade and convenience people have trusted for years. Available in projections up to 13'-2", this awning has the greatest projection available in its class. Customize with one of the five textured powder coated frame colors and hundreds of fabric choices by Sunbrella® and Tempotest® for the perfect look to blend with your home's exterior.

Contemporary Semi-Cassette

SUMMERSPACE®
OUTDOOR LIVING REDEFINED

The Simple Shade Contemporary Semi-Cassette Awning

This awning's modern front bar brings a sleek, contemporary edge to outdoor living, combining clean lines with smart, functional design. Its low-profile, aerodynamic styling and partially enclosed cassette create a streamlined look that blends effortlessly with today's architecture, while the rounded front bar tucks neatly into the housing when retracted for a polished, uniform appearance. Built not just for style but for performance, the semi-cassette design helps protect the fabric from the elements, extending its life while maintaining a crisp, refined aesthetic. The result is a sophisticated shade solution that feels modern, minimal, and thoughtfully engineered—perfect for homeowners looking to elevate their space with a more contemporary design statement.

Our Simple Shade Semi-Cassette Awning has a modern front bar for clean lines and contemporary styling.

Features & Options

ROOF MOUNT (OPTIONAL)

SummerSpace offers an optional roof mount when space requirements cannot be met for wall installation. (Shown with our semi-cassette awning which provides maximum protection from the elements on all sides.)

WIND/MOTION SENSOR (OPTIONAL)

The SummerSpace® Wind/Motion Sensor provides wind protection, retracting the awning when winds exceed a safe speed. Awning must be motorized.

MOTOR WITH REMOTE CONTROL

Operate your awning with a quiet, hidden, SummerSpace® tubular motor with an all weather remote control. Its manual override loop allows you to retract your awning in the event of a power outage. Simply plug the cord into an outside receptacle – no electrician is needed.

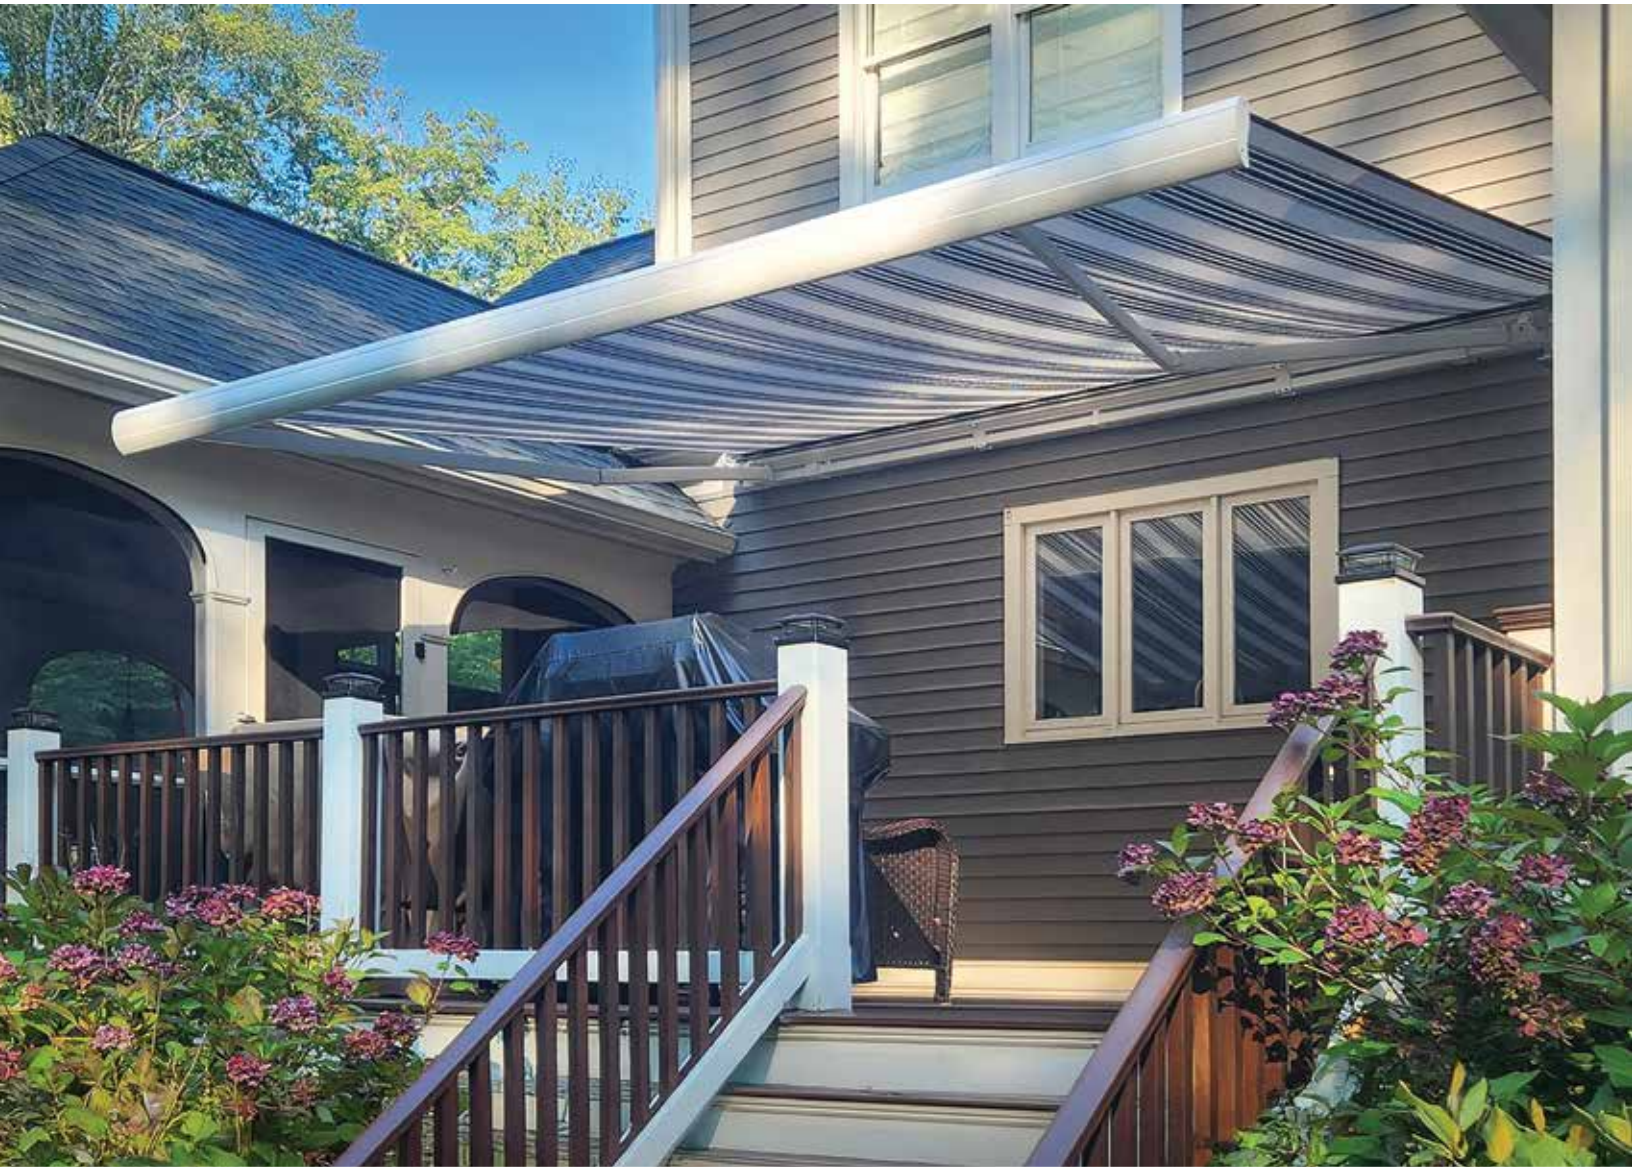

MOTORIZED SOLAR DROP SCREEN (OPTIONAL)

Motorized retractable solar drop screens (concealed in the awning's front bar) are available on projections up to 11'-8", providing over 4' of vertical shade. Solar mesh color is Ebony and provides up to 90% sun block. Battery operated motor with no cords. Includes 3 year warranty.

WE'RE ALL ABOUT COMFORT

Add fashion and function to your backyard with a beautiful Retractable Awning by SummerSpace®.
The shade an awning provides can reduce the temperature on your deck or patio by up to 20 degrees.
A SummerSpace® Awning will add equity to your home and provide years of lasting performance and enjoyment.
